

1800 Series Stage

Features

The SICO® 1800 Series Portable Stage system offers all the advantages of a mobile folding stage in a convenient single or dual height — along with the simplicity of built-in height adjustability. Each stage rolls freely on its own wheels, so there are no heavy sections to lift and carry, and no deck or frame trucks to slow you down.

Create multiple configurations that optimize your guest experience and streamline your event staff operations. This stage is designed to be handled and set up by just one person, minimizing labor and cost year over year.
